This program has been determined to qualify for 15 hours continuing education credit through the Emergency Nurses Association and the American Academy of Family Physicians

Description: Participants completing this program will be able to properly perform patient triage, decontamination, treatment, and transportation in the event of exposure to chemical, biological, radiological, nuclear and explosive (CBRNE) weapons. The course consists of facilitated discussions, small group exercises, hands-on activities, and task-oriented practical applications. Course participants will use both state-of-the-art adult and pediatric human patient simulators to promote critical thinking skills while utilizing the RAPID – Care concept.

Upon completion of the course, participants will be able to demonstrate the skills necessary for proper detection and monitoring, triage, mass decontamination, treatment, stabilization, self-protection, and cross-contamination prevention.

Prerequisites: It is recommended that participants complete two online courses before attending the course. These Internet courses are available at no cost to the participant. Visit www.teexwmdcampus.com and complete:

- Basic EMS Concepts for WMD Incidents
